All Star Group In Devils' Opposition

The 1953 Pahokee Blue Devil football squad, after ending its season in a blaze of glory, selected an all-star team in which it honored players who gave the Blue Devils their toughest opposition in the eight games of conference play. This team included Ends Wood of Pompano and Walpole of Seacrest, Tackles Scrambler of Fort Pierce and Smith of Pompano, Guards Bliznick of Fort Pierce and Chesser of Vero Beach, Center Neece of Pompano; Backs Ritchie and Barnes of Lake Worth, Gray of Fort Pierce and Offutt of Vero Beach.

The season ended with the Fort Pierce Eagles winning a clear claim to their third Suncoast Conference football title Thanksgiving night when they nipped out their arch-rival Vero Beach, 18-6. But who gave the champions a sound 26-13 whipping on Lair Field in Pahokee the night of Oct. 23. The Blue Devil, super-champions in the eyes of local fans, that's who! In humbling the Belle Glade Rams, 40-12, on Thanksgiving Eve the Blue Devils ended the season with a total of 218 points in conference games, surpassing by one point the record set by Clewiston the week previous when the Tigers ended their conference play by shellacking Pompano, 53-0. Blue Devil Halfback Hal Rosenberg chalked up a total of 97 points in conference play, which made him runner-up in individual scoring to Clewiston's Richard Bethea who ran up the amazing total of 115 points this season to set a new conference mark.

Devils And Coaches Guests Of Lions

The Pahokee High Blue Devil football boys and their two coaches, Webb Pell and Bill Howard, were guests of honor at the Tuesday luncheon meeting of the Pahokee Lions Club.

Bill Moss, program chairman, gave high praise to the 1953 Blue Devil eleven which confounded the pre-season prognosticators by developing early in the season into a powerful scoring machine that bowled over all opposition in a seven-game winning streak and ended the season strongly ensconced in third place of the Suncoast Conference. Moss introduced the two coaches and the individual players, each giving a brief talk on some impressive incident that occurred during the football season.

Sponsors Proudly Watch Devils Win

We just can't seem to stop raving about that 1953 Blue Devil football team—it was a dream team, the kind armchair quarterbacks develop in their wildest moments of fancy.

This year, even the Senior girl sponsors, Joann Kautz and Bonnie Meeks, seemed to realize the high honor that was bestowed on them when they were selected as sponsors of such a great team. Beautifully attired in smart clothes and wearing gorgeous white crysanthem corsages they revealed in their proud smiles that they knew they were hanging on to something special as they marched with Captains Buford Justise and Robert Goodson to the middle of the Belle Glade Field for introductions and the toss-up before the start of the game Wednesday night. And did you see their happy smiles during the ceremony following the game as they watched the Blue Devils receive the coveted Bill Young Memorial Trophy. What lucky girls!

Funeral Services Former Resident

Phillip Gordon White, former Pahokee resident now living in Ohio, was fatally injured in a truck accident Saturday, according to word received by his wife's parents, Mr. and Mrs. Altman E. Morgan of Pahokee, who left immediately for Ohio to be with their daughter, Lois.

Mr. White was driving a large truck for a construction firm at Chillicothe, Ohio, when the accident occurred, and died in a hospital there. Funeral services and burial were held at Catalpa, Ky., Sunday afternoon.

Mr. and Mrs. White lived in Pahokee last year when he assisted Mr. Morgan, his father-in-law, in farming operations in this area.

Thomas Wesley Lowe, 81, former pioneer resident of Canal Point, died at his home in Okeechobee Tuesday morning following a long illness.

Mr. Lowe, a native of Duval County, lived at Port Orange for several years before coming to the Glades area in the early days when farming was barely getting started in the Lake Okeechobee region. He lived in Canal Point from 1919 until 1935 when he moved to Okeechobee.

He retired from farming several years ago and was a member of the Canal Point First Baptist Church. Survivors include his wife, Martha, of Okeechobee; three sons, Wesley of Jacksonville, Horace C. of Okeechobee and J. R. A driver education student from each the Pahokee and Belle Glade High Schools will be selected by the Florida Highway Patrol in a champion teenage driver contest to represent the Glades Schools at a district contest in Miami, according to W. A. Slauter, driver education instructor for both schools.

Legion Discusses Post Name Change

A proposal to change the name of the Pahokee American Legion post from Fred and Percy Mansfield Post No. 90 to Pahokee Memorial Post No. 90 was discussed at a meeting of Post 90 Monday night with Commander Melvin Spooner presiding. It was pointed out in the discussion that plans are underway to dedicate in the near future Post 90's Legion Home to the war dead of World Wars I and II and the proposed new name would be more appropriate than the present one which honors two local veterans who died in World War I, while it is the aim of the post in the new memorial plaque being prepared to give equal honors to all the local war dead.

Action was deferred on this matter until next week's meeting when all members will have a chance to vote on the important proposal.

Ralph Johnson, chairman, reported the Legion-sponsored Thanksgiving turkey shoot was very successful, with 40 turkeys going to the public. Plans were made for a Christmas turkey shoot Dec. 22-24 from 2 to 10 p. m. R. M. (Mike) Sanders was named chairman of this project.

It was announced members of the American Legion Auxiliary will meet jointly with the Legionnaires Dec. 15 for their annual joint Christmas program.

Pickins Look Slim For B. D. Net Squad

Coach W. D. (Bill) Howard had only one returning letterman, Robert Goodson, in the squad of cagers reporting for basketball practice in the gym Monday and Tuesday. Goodson starred as a forward last year but Howard has plans for using him in guard position this year.

Only two other first string Blue Devil football players, Buford Justise and Donald Waddell, had reported for basketball practice Tuesday, however, Tommy Elliott may also join the squad in the next few days, Howard said.

Among others out for basketball this season are Thurman Kemp, Henry Hignite, Ray Hayes, Clifford Stuart, Ronnie Hitchcock, Johnny Sellers and Chat Clark. They will have less than two weeks of practice before the season opens on Dec. 11. Howard is being assisted in the training program by Coach Webb Pell.

Cinematic Chatter

By Malcolm Millar

Hello everybody! It was only a few years ago that Jimmy Stewart came shambling back from war, his hair graying and his features pinched from his combat experiences. Everyone around Hollywood, Jimmy most of all, wondered if he could pick up where he had left off. The war years had taken a sizeable chunk from the actor's film career. He had entered the Air Force when he was 33, returned to find a lot of new screen heroes firmly established around the movie lots, Stewart started on what he hoped would be the comeback trail with "It's a Wonderful Life," a cinematic venture which did little to give him his second wind. People around town started saying that the gangling, unassuming star was as dead, professionally, as the proverbial doornail. Refusing to give up, Stewart turned the tables and made a group of hit pictures in rapid succession... such films as "The Stratton Story," "Broken Arrow," "Winchester 73," "Harvey," "Bend of The River," and now "Thunder Bay," which Stewart claims will top even his recent successes. Hence, in his early forties, Jimmy can command virtually any role he asks for. He has never been as hot on the screen as he is at the present moment, and he is experiencing the enigmatic situation of being an idol of not only a present generation of film fans, but their parents as well. Paradoxically, although Stewart plays those mumbling, bumbling slowpoke roles on the screen, his actual career in the war showed him to be much more a hero than they ever made him in the movies. As colonel in the Air Force he led bombers on missions against Germany and won the Distinguished Flying Cross and the Croix de Guerre. Jimmy's marriage to former socialite Gloria McLean and his subsequent entry into the ranks of fatherhoods have made a changed man of him, according to some of his friends. See you at the movies—Mal.

Industry Growing Steadily In Florida

TALLAHASSEE — The Florida State Advertising Commission says that Florida's industrial development has far outstripped the rest of the Southeast.

U. S. Department of Commerce figures compiled by the commission reveal that plant investments have increased 75 per cent since 1947. The state closest approaching this record was South Carolina, where the plant investment increase amounted to 53 per cent.

The figures appeared in an industrial newsletter issued by the commission with figures being

compiled by Stanmore Cawthon. The newsletter also stated that the statistics support the statement of A. D. Davis, chairman of the Council for Industry and Commerce and head of the Winn Lovett Grocery chain, that Florida "is now beginning to catch up with its friendly competitors" despite a slow start.

Recent industrial developments cited by the newsletter include a \$2,000,000 General Motors Diesel repair plant at Jacksonville, a \$1,000,000 American Can addition to its plant at Plymouth, a \$3,000,000 addition to the Orlando plant of Crown Can, and a new \$1,500,000 Continental Can plant at Winter Haven.

Catering to elderly people, builders are employing ramps instead of stairs and using easily cleaned material such as clay tile in kitchen and bathroom, the Tile Council of America reports.

Farmers Want Hot Water Too . . .

Here Are Estimates on Requirements

By IRA MILLER
Farm Electrification Bureau

Hot water is something none should do without. It's necessary for the sake of cleanliness in the home—and it's a "must" from a money-making stand-

Hot and cold running water . . . plus telephone gives this southern farmer all the comforts of home in passageway between dairy barn and milk house.

point on the dairy farm. But it can be a terrible nuisance when it's provided by a bucket brigade which warts at the stove and moves un-

supply from bathroom, to sink to milk house.

In this automatic age it is only natural that farm people want hot

water available at the turn of a faucet. After all, city folks have enjoyed that luxury for many years. The simplest and easiest way to have it is through a combination of a pressure water system and an electric water heater. This type of water heater can be installed anywhere in homes or service buildings where 220-volt service is available. It requires no long pipe runs and, therefore, can be placed close to the point of use. Automatic, electrically-operated controls keep the water at constant temperature without any personal attention.

If you're curious about how much hot water you need, here are some eye-opening figures. A family of four uses over 1,200 gallons per month in the home for bathing, shaving, dish-washing and laundry. Dairywomen, with 30-cow herds, will use an average of 900 gallons per month for washing milking utensils, and other cleaning tasks around the milk house and in the barn. Water of 130 degrees is necessary for cleaning udders and stimulating cows for milking machines. Its use also reduces chances of contamination.

The size of water heater needed will vary in the farm home according to the size of the family and, on the farm, according to the type of operations conducted. It is a good rule, however, to over-estimate your needs, rather than to plan small on a "get-by" basis. When you have lots of hot water available you'll use more than you think. Costs of operation are variable, too. But, in general, a usable supply of hot water for the home can be supplied for 300 kilowatt-hours of electricity per month. Dairy farmers can plan on using about 35 kilowatt-hours of electricity for each 100 gallons of hot water supplied. Power suppliers serving your farm can give you all the installation and cost information you need for bringing your "running" hot water where and as you want it.

gation of Florida Wildlife."

Christian Science Group Of Canal Point

That human progress rests upon mankind's understanding of the wholly spiritual origin of man and the universe will be brought out in the Lesson—Sermon entitled, "God the Only Cause and Creator," which will be read at Christian Science services Sunday.

Among the selections from the Bible King James Version, the following will be read:
"Hast thou not known? hast thou not heard, that the everlasting God, the Lord, the Creator of the ends of the earth, fainteth not, neither is weary? there is no searching of his understanding" (Isaiah 40:28).

This passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will also be among those read:

"Spiritual causation is the one question to be considered, for more than all others spiritual causation relates to human progress. The age seems ready to approach this subject, to ponder somewhat the supremacy of Spirit, and at least to touch the hem of Truth's garment (170:22).

New Dispenser To Boost Citrus Sales

LOS ANGELES — Restaurants, drug stores and other big users of frozen orange juice may soon be finding it easier to dole out glassfuls of the drink to their customers. That's the promise Minute Maid Corporation holds forth, at least, for a new frozen concentrate dispenser now being tested in California.

Vice President Hamilton Stone says the unit is "truly revolutionary," according to the Wall Street Journal, and it answers the long search of juice companies for a fool-proof dispenser "that speeds up counter and table service without loss of quality."

The machine is made to handle big 32-ounce cans of concentrate. The can, minus its lid, pops into the machine, and an arm-like vacuum tube gets placed over the open top. The tube sucks out the contents and draws them into another container where the concentrate is mixed with water in the proper proportions.

The whole machine is placed on a soda fountain and the operator draws off glassfuls of juice much as he'd work a Coke dispenser.
